PROFILE

I'm a web developer with a thorough understanding of front-end technologies focused on producing clean and maintainable code. I'm looking for opportunities to contribute my skills and collaborate with a group to create amazing digital products.

EXPERIENCE

FRONT END DEVELOPER

GHD DIGITAL | AUG 2018 - PRESENT

- Developed, modernized and maintained front-end applications using HTML5, CSS3, jQuery and JavaScript
- Conversion of design mock-ups into fluid web based experiences to be optimally viewed across a variety of platforms (mobile, tablet, desktop)
- Implemented interactive UX elements using CSS animations
- Conducted web accessibility testing against the WCAG 2.0 Level A and AA success criteria

ASSOCIATE

SCOTIA ASSET MANAGEMENT | AUG 2016 - MAR 2018

- Built relationships with clients from initial due diligence and on-boarding, to ongoing monitoring, compliance and regulatory reporting
- Spearheaded projects for the implementation of new technology that increased efficiency and scalability of the business line, and improved and modernized client experience
